Subject Questions on Geochem Eval (Step 2) w/MPI and agencies

Meeting

Date 03/03/2006

Time 10:00:00 AM to 12:00:00 PM

Chair Alice Yeh

Invitees

Required

Optional

FYI

Location 800-393-0640, 816472#

2/23/06 invitation sent to Janine, Lisa, Scott N, Tim K, Reyhan M (cc: Liz, Beth, Ed G, Shane McD, Len W):

Based on the responses I have received, there seems to be no reason not to release this draft report to a wider audience for review and comment. During my own review of the document, I did not find anything that would prevent release either, but I did have some questions about how Malcolm Pirnie came to some of the conclusions that they did based on the data shown. So I asked for a conference call with Ed Garvey & Shane McDonald (who are the geochemists who mainly worked on this) to make sure I understand the report.

If you have read the report and have questions about it, please feel free to join me on my call (information follows):

March 3 at 10 am to 12 pm

[1-800-393-0640](tel:1-800-393-0640)

[passcode 816472#](tel:1-800-393-0640)

Note that this is not a presentation by MPI on the report -- I plan to just flip through and ask questions on the sections I didn't understand.

Subject Fw: Draft Geochemical Evaluation (Step 2) posted to PREmis

Malcolm Pirnie has produced another, more detailed evaluation of the historical data in an effort to continue refining our conceptual site model of the Lower Passaic River. Please take a quick scan through the text to see if there is anything that should prevent us from releasing this to our stakeholders (including the PRPs) for review and comment. This initial scan by the agencies is just for fatal flaws that would prevent release to the wider audience: you will have more time to put together your own detailed comments at the same time as the stakeholders are doing their own reviews.

Please let me know by COB on 2/17 whether I can release this on 2/21. Thanks.

P.S. The document posted on PREmis is large, so don't just click on the name of the file, but check off the box on the left of the name and select "download".

Subject Draft Geochemical Evaluation (Step 2) posted to PREmis

Hello Alice and Beth:

The Draft Geochemical Evaluation (Step 2) is posted to PREmis in the Superfund and WRDA Deliverables\Data Evaluation folder. Please contact us with any questions and comments regarding the document. Talk to you soon,

Len
